Shree Ashtech Pvt. Ltd.

Who we are?

Shree Ashtech Pvt. Ltd. was founded in 2004 as an identity in the field of supply & transportation of Imported Coal, Pet coke & Dry Fly Ash. Formerly, we were delivering our products and services as Shree Ashtech Enterprises. Transforming from an enterprise to Private Limited Company during the span of 14 years, the company has touched the growth & reputation in the field of supply and transportation of imported Coal, Pet coke & Dry Fly Ash.

Our Business

At present, we supply and transport approx. 40,000 MT of Imported coal and Pet coke to various clients, up to their full requirements, at competitive rates all over India from Kandla, Mundra & Navlakhi ports.

We supply Dry Fly ash from APCPL/CLP Jharli, NTPC Dadri, PTPS Panipat & RGTPP (Hisar). We are utilizing app. 35,000 MT of Pond Ash / Dry fly ash per month from these power plants to various utilizers like Cement plants, Highways Projects, RMC's, manufacturers, AAC Blocks, ACC Roofing sheets.

What makes us reliable?

- a) Our rich experience in handling bulk cargos from various Refineries, Ports & Thermal Power plants all over India.
- b) A well experienced team to serve big industrial houses and corporations, to deal in different commodities like Cement / Paper / ACC Roofing / AAC Blocks / RMC / Other medium and small industries.
- c) We are authorized by Reliance Ind. Pvt.Ltd. Jamnagar / IOCL Panipat / IOCL Koyli (Baroda) / ESSAR Jamnagar for transportation of pet coke.

COAL

We have been engaged by IOCL to transport / export consignment of pet coke to various cement industries located in Nepal from Panipat Refinery.

Accomplishments:

- We are the first transport contractors working with IOCL since inauguration of pet coke in IOCL Panipat & IOCL Koyli.
- We have been awarded with “Excellent Performing Vendor 2015” in category of Raw Material Supplier (Pet coke Transportation from Reliance) by Ultratech Kotputli Woks during Vendor Meet-2015.

We deal in 4 types of coal:

- Indonesian Coal
- US Coal
- Petcoke
- Screened Coal

a) Indonesian Coal (Steam Coal)

- Indonesian Coal (Steam Coal) widely used in medium and small industries as fuel in boilers.
- We deal in various grades of Indonesian coal varies from 3200 to 5300 GAR.

b) US Coal (Bituminous Coal)

- Bituminous coal has high CV coal and is also superior as compared to Indonesian coal.
- We can supply coal from 6200 to 6900 NAR

c) Petcoke (Petroleum Coke)

- We can supply Petcoke from RIL / ESSAR from Jamnagar refinery.

d) Screened Coal (Indonesian)

- Size 0-6 mm; 6-20; 20-50; 10-20 mm
- GAR 4200-5000 GAR

Ash+™ (Classified Fly Ash)

We have launched our new product ASH+™, which is basically classified fly ash. ASH+™ is highly recommended, all over the world, for structural concrete applications.

We Can Classify The Fly Ash In Different Grades As Per Customer Requirement.

Why ASH+™ ?

- It increases the life of concrete structures substantially.
- The ASH+™ (classified Fly Ash) particularly designed and processed to obtain maximum performance on most of the cement and concrete applications.
- It can be designed and processed as per customer requirements to use as a cement replacement product.

Packing & Delivery

- Our products can be easily available, based on Client's requirement, in 50 kg HDPE bags, Jumbo bags carrying 1-1.3 MT , loose supply in 25-40 MT Flyash bulkers.
- In a changing business environment we are always prepared to satisfy our customer`s demand. We have our own network of distribution for doorstep delivery to our clients.
- We have our owned brand new fleet of Ashok Leyland / TATA U4923 & 2515 Bulklers to fulfil the requirements of our customer.
- We transport fly ash / cement / slag round the clock through our fleet equipped with GPS devices. We have 31 m³, 36 m³, 52m³ bulkers to supply material as per customer requirements.

Apparels:
